The Fighting First Flint Whitlock 2004-04-13 Chronicles the inspiring story of the American soldiers in the United States Army's 1st Infantry Division and their role in the D-Day invasion of France at Normandy, followed by their fight across France, Belgium, and into Germany. 50,000 first printing.

War Paint Bill Goshen 2001-10-30 The men who served with in the 1st Infantry Division with F company, 52nd Infantry, (LRP) later redesignated as Company I, 75th Infantry (Ranger) --engaged in some of the fiercest, bloodiest fighting during the Vietnam War, suffering a greater relative aggregate of casualties than any other LRRP/LRP/ Ranger company. Their base was Lai Khe, within hailing distance of the Vietcong central headquarters, a mile inside Cambodia, with its vast stockpiles of weapons and thousands of transient VC and NVA soldiers. Recondo-qualified Bill Goshen was there, and has written the first account of these battle-hardened soldiers. As the eyes and ears of the Big Red One, the 1st Infantry, these hunter/killer teams of only six men instered deep inside enemy territory had to survive by their wits, or suffer the deadly consequences. Goshen himself barely escaped with his life in a virtual suicide mission that destroyed half his team. His gripping narrative recaptures the raw courage and sacrifice of American soldiers fighting a savage war of survival: men of all colors, from all walks of life, warriors bonded by triumph and tragedy, by life and death. They served proudly in Vietnam, and their stories need to be told.

Patton's First Victory Leo Barron 2017-10-20 American troops invaded North Africa in November 1942, but did not face serious resistance until the following February, when they finally tangled with Rommel's Afrika Korps—and the Germans gave the inexperienced Americans a nasty drubbing at Kasserine Pass. After this disaster, Gen. George Patton took command and reinvigorated U.S. troops with tough training and new tactics. In late March, at El Guettar in Tunisia, Patton's men defeated the Germans. It was a morale-boosting victory—the first American success versus the Germans and the first of Patton's storied World War II career—and proved to the enemy, the British, and the Americans themselves that the U.S. Army could fight and win.

Doctor Danger Forward Allen N. Towne 2014-04-24 As a combat medical aidman of Company B, 1st Medical Battalion, First Infantry Division, Allen N. Towne experienced some of the pivotal events of World War II. "Doctor B," as his unit was known, was attached to the 18th Regimental Combat Team and moved with them, providing continuous close medical support. Covering both little-known engagements, and such historic moments as the campaign in Sicily and the D Day landings at Omaha Beach, this book is both a memoir and a history of one of the war's most impressive units. The text is based on both official "morning reports" and the author's personal notes, providing accuracy as well as human insight. In Doctor Danger Forward ("danger forward" was the code name of the First Division headquarters), Towne, who received the Bronze Star and Oak Leaf Cluster for his heroism at Omaha Beach and Normandy, chronicles events both epic and intimate, profoundly serious as well as humorous. There are numerous maps and photographs, including many taken by the author.

The 1st Us Infantry Division Stephane Lavit 2017-04-14 The 1st Infantry Division was established in 1917 to participate in the fighting in France and faced the major German offensives of 1918. During the Second World War, it effected its first assault landing in North Africa in 1942. Then followed the invasion of Sicily, D-Day in Normandy, the battle of the Bulge and the conquest of the Reich, as far as Czechoslovakia. According to the division lore, at the time, the U.S. Army consisted of the First Infantry Division and eight million replacements! Thanks to hundreds of historical pictures, the reader will follow the Big Red One's glorious path in its most difficult assignments.

Borrowed Soldiers Mitchell A. Yockelson 2016-01-18 The combined British Expeditionary Force and American II Corps successfully pierced the Hindenburg Line during the Hundred Days Campaign of World War I, an offensive that hastened the war's end. Yet despite the importance of this effort, the training and operation of II Corps has received scant attention from historians. Mitchell A. Yockelson delivers a

comprehensive study of the first time American and British soldiers fought together as a coalition force—more than twenty years before D-Day. He follows the two divisions that constituted II Corps, the 27th and 30th, from the training camps of South Carolina to the bloody battlefields of Europe. Despite cultural differences, General Pershing's misgivings, and the contrast between American eagerness and British exhaustion, the untested Yanks benefited from the experience of battle-toughened Tommies. Their combined forces contributed much to the Allied victory. Yockelson plumbs new archival sources, including letters and diaries of American, Australian, and British soldiers to examine how two forces of differing organization and attitude merged command relationships and operations. Emphasizing tactical cooperation and training, he details II Corps' performance in Flanders during the Ypres-Lys offensive, the assault on the Hindenburg Line, and the decisive battle of the Selle. Featuring thirty-nine evocative photographs and nine maps, this account shows how the British and American military relationship evolved both strategically and politically. A case study of coalition warfare, *Borrowed Soldiers* adds significantly to our understanding of the Great War.

Blood for Dignity David P. Colley 2004-02-04 The integration of black platoons in 1945 represents the first time since the American Revolution that African American soldiers were integrated into white combat units. The experiences of these soldiers were truly radical and a harbinger of things to come. Clearly, these black infantrymen planted the seeds of integration in the army--and the nation. Blood for Dignity tells the story of these soldiers through the eyes of 5th platoon, K Company, 394th Regiment, 99th Division--the first integrated combat unit since the Revolutionary War. These men were involved in heavy combat at the Remagen Bridgehead and several other critical junctures as they drove back the German army. The performance of these men laid to rest the accepted white attitude of a century and a half that blacks were cowardly and inferior fighters. In fact, they proved to be just the opposite. Author David Colley interviewed many of the members of the 99th. Their accounts along with years of reseach paint a gripping, combat-heavy portrait of young men fighting together for their nation. For as they will tell you, in combat situations, prejudice and the color line disappears.

The Fighting First Flint Whitlock 2009-04-29 The Fighting First tells the untold story of the 1st Infantry Division's part in the D-Day invasion of France at Normandy. Using a variety of primary sources, official records, interviews, and unpublished memoirs by the veterans themselves, author Flint Whitlock has crafted a riveting, gut-wrenching, personal story of courage under fire. Operation Overlord - the Allied invasion of Normandy on 6 June 1944 - was arguably the most important battle of World War II, and Omaha Beach was the hottest spot in the entire operation. Leading the amphibious assault on the "Easy Red" and "Fox Green" sectors of Omaha Beach was the U.S. Army's 1st Infantry Division - "The Big Red One" - a tough, swaggering outfit with a fine battle record. The saga of the Big Red One, however, did not end with the storming of the beachhead. The author concludes with an account of the 1st in their fight across France, Belgium, and into Germany itself, playing pivotal roles in the bloody battles for Aachen, the Huertgen Forest, and the Battle of the Bulge. The Fighting First is an inspiring, graphic, and often heartbreaking story of young American soldiers performing their D-Day missions with spirit, humor, and determination.

Call Sign Dracula Joe Fair 2020-10-31 "Call Sign Dracula" provides an outstanding, valuable and worthy in-depth look into the life of a US Army Infantry soldier serving with the famed 1st Infantry Division (The Big Red One) in Vietnam. It is a genuine, firsthand account of a one-year tour that shows how a soldier grew and matured from an awkward, bewildered, inexperienced, eighteen-year-old country "bumpkin" from

Kentucky, to a tough, battle hardened, fighting soldier. You will laugh, cry, and stand in awe at the true-life experiences shared in this memoir. The awfulness of battle, fear beyond description, the sorrow and anguish of losing friends, extreme weariness, dealing with the scalding sun, torrential rain, cold, heat, humidity, insects, and the daily effort just to maintain sanity were struggles faced virtually every day. And yet, there were good times. There was the coming together to laugh, joke, and share stories from home. There was the warmth and compassion shown by men to each other in such an unreal environment. You will see where color, race, or where you were from had no bearing on the tight-knit group of young men that was formed from the necessity to survive. What a "bunch" they were! ... then the return to home and all the adjustments and struggles to once again fit into a world that was now strange and uncomfortable. "Call Sign Dracula" is an excellent and genuine memoir of an infantry soldier in the Vietnam War.

Low Level Hell Hugh L. Mills, Jr. 2009-01-16 The aeroscouts of the 1st Infantry Division had three words emblazoned on their unit patch: Low Level Hell. It was then and continues today as the perfect concise definition of what these intrepid aviators experienced as they ranged the skies of Vietnam from the Cambodian border to the Iron Triangle. The Outcasts, as they were known, flew low and slow, aerial eyes of the division in search of the enemy. Too often for longevity's sake they found the Viet Cong and the fight was on. These young pilots (19-22 years old) "invented" the book as they went along. Praise for Low Level Hell "An absolutely splendid and engrossing book. The most compelling part is the accounts of his many air-to-ground engagements. There were moments when I literally held my breath."—Dr. Charles H. Cureton, Chief Historian, U.S. Army Training and Doctrine (TRADOC) Command "Low Level Hell is the best 'bird's eye view' of the helicopter war in Vietnam in print today. No volume better describes the feelings from the cockpit. Mills has captured the realities of a select group of aviators who shot craps with death on every mission."—R.S. Maxham, Director, U.S. Army Aviation Museum

No Sacrifice Too Great Gregory Fontenot 2023-06-21 Winner of the 2023 Army Historical Foundation Distinguished Writing Award for Unit History The U.S. 1st Infantry Division (1st ID), familiarly known as the Big Red One, adapted to dynamic battlefield conditions throughout the course of its deployment during World War II by innovating and altering behavior, including tactics, techniques, and procedures. Both the Division's leaders and soldiers accomplished this by thinking critically about their experiences in combat and wasting little time in putting lessons learned to good use. Simply put, they learned on the job—in battle and after battle—and did so quickly. In telling the Division's WWII story, which includes an extensive photographic essay featuring many previously unpublished images, Gregory Fontenot includes the stories of individual members of the Big Red One, from high-ranking officers to enlisted men fresh off the streets of Brooklyn, both during and after the conflict. Colonel Fontenot's rare ability to combine expert analysis with compelling narrative history makes No Sacrifice Too Great an absorbing read for anyone interested in the military history of the United States.

The First Infantry Division and the U.S. Army Transformed Gregory Fontenot 2017-05-31 "The First Infantry Division and the US Army Transformed sheds fresh light and understanding on the combat experiences of soldiers and units in the 1991 Gulf War. Greg Fontenot, an accomplished soldier and historian as well as a veteran of that war, explains how that lopsided victory was rooted in the Army's Renaissance after the Vietnam War. In his expert telling, Fontenot makes clear that understanding the experience of the First Infantry Division in Desert Storm is important to preparing for future armed

conflict."--Provided by publisher.

Danger 79er James H. Willbanks 2018-04-12 In *Danger 79er*, historian James H. Willbanks tells the remarkable story of Lt. Gen. James F. Hollingsworth, a three-time recipient of the Distinguished Service Cross along with four Silver Stars, six Purple Hearts, and a host of additional medals and commendations. His career spanned wars both cold and hot, and throughout, "Holly" was a hard-charging, hands-on soldier who could be irreverent and brash but always "led from the front." Hollingsworth entered the US Army as a second lieutenant upon graduation from the Agricultural and Mechanical College of Texas (now Texas A&M University). In World War II, while leading tanks in Gen. George S. Patton's Third Army, Hollingsworth encountered dug-in German defenders. He lined up his thirty-four tanks and issued a command rarely heard in modern warfare: Charge! Patton later recognized Hollingsworth as one of the two best armored battalion commanders in the war. Twenty years later, Hollingsworth served in Vietnam, where he became identified by the radio call-sign of "Danger 79er," a designation that remained for the duration of his career. He later served in South Korea commanding I Corps (ROK/US) Group, the largest combined field army in the world. Even after retirement from active duty, Hollingsworth continued to serve as a military adviser during the Cold War. *Danger 79er* provides a compelling and inspiring read as it recounts the exciting story of one of the most decorated soldiers in the history of the US Army.

First Over There Matthew J. Davenport 2015-05-12 The riveting true story of America's first modern military battle, its first military victory during World War One, and its first steps onto the world stage At first light on Tuesday, May 28th, 1918, waves of American riflemen from the U.S. Army's 1st Division climbed from their trenches, charged across the shell-scarred French dirt of no-man's-land, and captured the hilltop village of Cantigny from the grip of the German Army. Those who survived the enemy machine-gun fire and hand-to-hand fighting held on for the next two days and nights in shallow foxholes under the sting of mustard gas and crushing steel of artillery fire. Thirteen months after the United States entered World War I, these 3,500 soldiers became the first "doughboys" to enter the fight. The operation, the first American attack ever supported by tanks, airplanes, and modern artillery, was ordered by the leader of America's forces in Europe, General John "Black Jack" Pershing, and planned by a young staff officer, Lieutenant Colonel George C. Marshall, who would fill the lead role in World War II twenty-six years later. Drawing on the letters, diaries, and reports by the men themselves, Matthew J. Davenport's *First Over There* tells the inspiring, untold story of these soldiers and their journey to victory on the Western Front in the Battle of Cantigny. The first American battle of the "war to end all wars" would mark not only its first victory abroad, but the birth of its modern Army.

Reflections on the Vietnam War Warren Hunt 2017-12-08 ""An important contribution to the literature on the war."" Gary R. Hess, Emeritus Distinguished Research Professor, Bowling Green State University. Author, --"Vietnam: Explaining America's Lost War." In his *Reflections on the Vietnam War: A Fifty-Year Journey*, Warren E. Hunt chronicles his long struggle to come to grips with the meaning of the Vietnam War

and how it affected him before, during and after his tour in Vietnam with the U.S. First Infantry Division. Using a stylistic mix of personal anecdote, historical reflection and essay, the author weaves his experience of the war into a broad context encompassing the course of his life. Starting out as a naive and patriotic teenager drafted at age 19, he traces his path through military training, his impressions of Vietnam and its people, the absurdity of daily basecamp life, and the crucible of enemy fire. Returning to a nation torn apart by the war, he soon realizes that, even though he is no longer in the army, he cannot escape the war's insane grasp. Catastrophic events in Vietnam and on the home front, along with the dawning awareness of suicides among his fellow veterans, prompt him to seek answers to the questions that haunt his daily life: Why did America go to war in Vietnam? How could we lose? Why did so many people have to suffer in vain? His quest leads him to the unveiling of the Vietnam Veterans Memorial in Washington, D.C., where painful memories and powerful emotions merge to initiate a healing process for the author, his fellow veterans and the country at large.

Desert Redleg L. Scott Lingamfelter 2020-05-19 When Saddam Hussein's Iraq invaded Kuwait in August 1990, triggering the First Gulf War, a coalition of thirty-five countries led by the United States responded with Operation Desert Storm, which culminated in a one-hundred-hour coordinated air strike and ground assault that repelled Iraqi forces from Kuwait. Though largely forgotten in descriptions of the war, an eight-day barrage of artillery fire made this seemingly rapid offensive possible. At the forefront of this offensive were the brave field artillerymen known as "redlegs." In *Desert Redleg: Artillery Warfare in the First Gulf War*, a veteran and former redleg of the 1st Infantry Division Artillery (otherwise known as the "Big Red One"), Col. L. Scott Lingamfelter, recounts the logistical and strategic decisions that led to a coalition victory. Drawing on original battle maps, official reports, and personal journals, Lingamfelter describes the experience of the First Gulf War through a soldier's eyes and attempts to answer the question of whether the United States "got the job done" in its first sustained Middle Eastern conflict. Part military history, part personal memoir, this book provides a boots-on-the-ground perspective on the largest US artillery bombardment since World War II.

Life and Death in the Central Highlands James T. Gillam 2010 Drafted into the Army in 1968, Gillam transformed from an uncertain sergeant to an aggressive soldier, serving in Vietnam and Cambodia. As a regular point man and occasional tunnel rat who fought below ground, the killing became close range and brutal. Gillam left the Army in 1970, and he was once again a college student and destined to become a university professor.

Enlisting Faith Ronit Y. Stahl 2017-11-06 A century ago, as the United States prepared to enter World War I, the military chaplaincy included only mainline Protestants and Catholics. Today it counts Jews, Mormons, Muslims, Christian Scientists, Buddhists, Seventh-day Adventists, Hindus, and evangelicals among its ranks. *Enlisting Faith* traces the uneven processes through which the military struggled with, encouraged, and regulated religious pluralism over the twentieth century. Moving from the battlefields of Europe to the jungles of Vietnam and between the forests of Civilian Conservation Corps camps and meetings in government offices, Ronit Y. Stahl reveals how the military borrowed from and battled religion. Just as the state relied on religion to sanction war and sanctify death, so too did religious groups seek recognition as American faiths. At times the state used religion to advance imperial goals. But religious citizens pushed back, challenging the state to uphold constitutional promises and moral standards. Despite the constitutional separation of church and state, the federal government authorized and managed religion in the military. The chaplaincy demonstrates how state leaders scrambled to handle the nation's deep religious, racial, and political complexities. While officials debated which clergy could serve, what insignia they would wear, and what religions appeared on dog tags, chaplains led worship for a range of faiths, navigated questions of conscience, struggled with discrimination, and confronted untimely death. *Enlisting Faith* is a vivid portrayal of religious encounters, state regulation, and the trials of faith—in God and country—experienced by the millions of Americans who fought in and with the armed forces.

The Battle of the Bulge John R. Bruning 2011-10-02 Originally published in hardcover in 2009.

Spearhead Ian Westwell 2002 The oldest continuously serving division in the U.S. Army, the 1st Infantry Division, called the "Big Red One" because of the red numeral "1" on the uniform shoulder patch, was the

first regular army division organized in June 1917 to fight in France with the Allied armies. Since then, 1st Infantry Division's battle honors are Tunisia, Sicily, Normandy, the Bulge, Germany. Postwar, the division served in Europe, Vietnam, Desert Shield, Desert Storm and Bosnia.

The Big Red One James Scott Wheeler 2017-06-16 "No mission too difficult, no sacrifice too great—Duty First!" For a century, from the Western Front of World War I to the wars of the 21st century, this motto has spurred the soldiers who wear the shoulder patch bearing the Big Red One. In this comprehensive history of America's 1st Infantry Division, James Scott Wheeler chronicles its major combat engagements and peacetime duties during its legendary service to the nation. The Centennial Edition adds new chapters on peacekeeping missions in the Balkans (1995 - 2004) and the wars in Iraq and Afghanistan (2001 - 2017), along with a new introduction and conclusion. The oldest continuously serving division in the U.S. Army, the "Fighting First" has consistently played a crucial role in America's foreign wars. It was the first American division to see combat and achieve victory in World War I. One of the few intact divisions between the wars, it was the first army unit to train for amphibious warfare. During World War II, the First Division spearheaded the invasions of North Africa and Sicily before leading the Normandy invasion at Omaha Beach and fighting on deep into Germany. By war's end, it had developed successful combined-arms, regimental combat teams and made advances in night operations. Wheeler describes the First Division's critical role in postwar Germany and as the only combat division in Europe during the early Cold War. The division fought valiantly in Vietnam for five trying years while pioneering "air-mobile" operations. It led the liberation of Kuwait in Desert Storm. Along the way, Wheeler illuminates the division's organizational evolution, its consistently remarkable commanders and leaders, and its equally remarkable soldiers. Meticulously detailed and engagingly written, *The Big Red One* nimbly combines historical narrative with astute analysis of the unit's successes and failures, so that its story reflects the larger chronicle of America's military experience over the past century. Published in collaboration with the Cantigny First Division Foundation and the Cantigny Military History Series, edited by Paul H. Herbert.

From its formation in May 1917 to its significant role in the Armistice and subsequent occupation of Germany, this book meticulously details the division's journey. Drawing on a rich array of primary sources, including letters, diaries, and military reports, as well as extensive secondary sources, it provides a vivid account of the training, combat experiences, and strategic contributions of the 1st Infantry Division. Readers will gain an intimate understanding of the challenges faced by the soldiers, the leadership dynamics, and the division's tactical innovations that left an indelible mark on military history. This comprehensive history not only chronicles the division's key battles, such as Cantigny, Soissons, and the Meuse-Argonne Offensive, but also examines the broader impact of their service. The book delves into the personal experiences of the "Doughboys," the division's interactions with Allied forces, and its adaptation to the brutal realities of trench warfare. With detailed appendices, including a division order of battle, Medal of Honor citations, and a glossary of military terms, this work serves as an essential resource for historians, military enthusiasts, and anyone interested in the legacy of the 1st Infantry Division during World War I.

A Third Face Samuel Fuller 2004 (Applause Books). Winner of Best Non-Fiction for 2002 Award from the Los Angeles Times Book Review! Samuel Fuller was one of the most prolific and independent writer-director-producers in Hollywood. His 29 tough, gritty films made from 1949 to 1989 set out to capture the truth of war, racism and human frailties, and incorporate some of his own experiences. His film *Park Row* was inspired by his years in the New York newspaper business, where his beat included murders, suicides, state executions and race riots. He writes about hitchhiking across the country at the height of the Great Depression. His years in the army in World War II are captured in his hugely successful pictures *The Big Red One*, *The Steel Helmet* and *Merrill's Marauders*. Fuller's other films include *Pickup on South Street*; *Underworld U.S.A.*, a movie that shows how gangsters in the 1960s were seen as "respected" tax-paying executives; *Shock Corridor*, which exposed the conditions in mental institutions; and *White Dog*, written in collaboration with Curtis Hanson (*L.A. Confidential*), a film so controversial that Paramount's then studio

heads Jeffrey Katzenberg and Michael Eisner refused to release it. In addition to his work in film, Samuel Fuller (1911-1997) wrote eleven novels. He lived in Los Angeles with his wife and their daughter. A Third Face was completed by Jerome Henry Rudes, Fuller's longtime friend, and his wife, Christa Lang Fuller. "Fuller wasn't one for tactful understatement and his hot-blooded, incident-packed autobiography is accordingly blunt ... A Third Face is a grand, lively, rambunctious memoir." Janet Maslin, The New York Times ; "Fuller's last work is a joy and an important addition to film and popular culture literature." Publishers Weekly ; "If you don't like the films of Sam Fuller, then you just don't like cinema." Martin Scorsese, from the book's introduction
